

FCCMembers of Congress:

As an XM listener, I strongly oppose any and all attempts, expressed, implied or otherwise, in the part of the NAB that suggest, recommend, support, force, coerce, pursuits or seeks to stop XM from providing XM Instant Traffic & Weather.

I commute approximately 200 miles a day to work and travel through several cities to get to my destination. I depend on XM Traffic and Weather because neither AM nor FM cover most of my travel area.

I, along with other fellow listeners, will follow up on this issue and remember the decisions of our representatives in Congress next time we vote. XM is here to stay. It's my choice.

I suggest the NAB better their service!!!

Cesar Paz
